### Contribution / Co-Pay Information

The Petersburg Humane Association spay/neuter grant-in-aid program provides financial **assistance** to pet owners or concerned individuals who cannot otherwise afford to have their animal spayed or neutered. Spay and neuter procedures are performed at Waterways Veterinary Clinic.

Please be advised, this spay/neuter voucher covers routine spay and neuter procedures plus the cost of the pet's pre-surgical exam. Active uterus surcharges, additional medications or extraordinary procedures are not covered by PHA and are the financial responsibility of the owner.

**As a participant in your pet's care, we encourage you to contribute as much as you can afford toward the cost of the procedure (we suggest at least \$105.00 for a cat or \$145.00 for a dog).**

Please tell us about why you are requesting spay/neuter assistance. If you cannot afford the minimum contributions, please tell us why and how much you are able to afford. All information is confidential.
